

October 21 is
Biomedical
Research
Day.

On this day
we celebrate
the work
you do
every day.

Thank you. From your friends at The
Massachusetts Society for Medical Research.

**Massachusetts Society
for Medical Research**

President Clinton first proclaimed Biomedical Research Day in 1993. The state Legislature adopted Massachusetts Biomedical Research Day in 2006. We hope that soon every New England state will have an official holiday in honor of lifesaving biomedical research.
